European Light Vehicle Trade Flow Forecast
Information detailing Light Vehicle flows to, from and within Europe
Targeted data to help you maximise your opportunities

The European Light Vehicle Trade Flow Forecast monitors Light Vehicle sales and flows within, into and out of Europe. For each individual European plant, we detail the country of final destination and the plant of origin for European imports.

As sourcing patterns shift and new challenges emerge, this service provides detailed statistical data essential to plan and react to changing events.

This quarterly service offers a 5-year history alongside a 7-year forecast. It is a vital tool for OEMs, component suppliers, logistic providers and financial planners.

Success requires smart thinking
