Inventory

European Light Vehicle Trade and Inventory Service

Targeted data to help you maximise your opportunities

Success requires smart thinking

The European Trade and Inventory Service monitors Light Vehicle sales and trade and quantifies emerging imbalances in the form of imputed inventory changes and Days Supply. This is a monthly service.

Such an understanding is vital for any component supplier or manufacturer needing to understand short-term trends within the market.

Data Fields:

- European demand
- Change YoY
- Export volume
- Export share
- Global demand
- Production
- Change YoY
- Stock levels
- Change in stocks
- Days supply
- Inventory change
- Inventory assessment
Access industry expertise

Navigating the automotive sector is complex, but incorporating the right guidance, at the right time, can unlock significant opportunities and mitigate risks. Our data is accompanied by:

- **Days Supply**, both current and forecast, with reference to our unique OEM benchmark estimates.

- **Individual assessments** of each OEM’s current situation, prospects and future strategy, as well as inventory levels by brand and model.

Power business decisions

Access and interpret the data on **Compass**, our delivery and interactive analytics tool.

Download our services and visualise our data and forecasts in a variety of innovative ways.

Our coverage extends to:
